Occupation/Employer: Director of Engineering - Civil Engineer / Central Contra Costa Sanitary District

Length of Residency in Lafayette: 24 years

Applicable Experience/Training for Position: I am a registered Civil Engineer in the State of California with both a Bachelors and Masters Degree in Civil/Environmental Engineering. I was a practicing consulting Engineer for approximately 22 years providing services to communities throughout the State of California to solve wastewater collection and treatment problems. I transitioned to the public sector in 1999, when I became Director of Engineering for Central Contra Costa Sanitary District. Both in my practice as a consultant and in my current role at the District, I have had significant exposure to the development of capital improvement budgets and plans and the need to optimize those plans to make the best use of scarce resources. Cities I completed significant capital projects for, when I was a consultant, included Livermore, Watsonville, Roseville and Pacifica. At the District I am in charge of a Capital Improvement Budget and Plan that averages $30 to 40 million per year and requires interfacing and coordinating with all of the cities in our jurisdiction as well as Contra Costa County. I believe my training and work experience, as well as my familiarity with the City of Lafayette and the County, make me an ideal candidate to provide input on the City of Lafayette Capital Program.

12C

Comments/Additional Information: I believe the City of Lafayette needs a strong capital program to maintain it's public infrastructure and facilities. I hope I can be an asset to staff to help ensure that Lafayette's limited resources are spent wisely.

Please list three professional references:

James M. Kelly, General Manager, Central Contra Costa Sanitary District

Tad Pilecki, Capital Projects Division Manager, Central Contra Costa Sanitary District

Michael McGill, Board Member, Central Contra Costa Sanitary District and Engineering Consultant

Please list your most recent public or civic volunteer experience:
